Sir:

Attached please find photographs of a slide-in heater core in a Peterbilt model P387 heavy duty truck. The truck in question was purchased January 31, 2000. The photographs show a sequence of removal of the cover plate and partially sliding out of the filter performed by Applicants' assignee's parent company technicians at the direction of Applicants' attorney. This investigation was directed in response to the Examiner's query in an earlier communication.

An action on the merits is requested.

Respectfully submitted,
